

PBIS Tier 1 Annual Evaluation Rowland Elementary 2021-2022

Platinum Implementation Award

In August 2021, The California PBIS Coalition, recognized Rowland Elementary's successful PBIS implementation at the PLATINUM level. This award reflects excellence in the measurement of fidelity as well as our schools' efforts in implementing the core features of Positive Behavioral Interventions and Supports.

What is PBIS?

Positive Behavior Interventions and Supports (PBIS) is a multi-tiered framework for creating and maintaining a positive school climate by teaching and acknowledging clear behavior expectations. Here atRowland Elementary, our behavior expectations are **PRIDE: Problem Solving, Respect/Responsibility, Integrity, Determination and Empathy**.

PBIS Implementation Data

98% School-Wide PBIS Fidelity Score for Tiers 1-3 (Goal: 70% or higher)	The Tiered Fidelity Inventory (TFI) measures the level of implementation of PBIS. Schools scoring at 70% or higher on the TFI are considered effective and more likely to see outcomes.
	Our implementation data revealed that one of our strengths is our school-wide systems that are inplace. One focus area for the 22-23 school year will be to have staff continue directly teaching expected academic & social behaviors across all campus settings/locations. We will also ensure that all the students know & understand what P.R.I.D.E. stands for.

PBIS Effectiveness Data

Behavior: 0-1 Referrals	Behavior: 2+ Referrals	Suspension Rate
Referrals by Location Drill Down	Referrals by Location Dill Down	Dend - Planet for Resident Elements y Solid Total
The 2021-2022 school year was based on SWIS data.	The 2021-2022 school year was based on SWIS data.	In the 2021-2022 school year, we had 15 suspensions.
369 received 0-1 referral. Of that 61 students got 1 referral. That is 85% of our student population.	93 students received more than one referral. That is 21% of the student population.	We had a significant number of suspensions on one day in the year. These were vandalism offenses related to a nationwide social media challenge.
