

PBIS Tier 1 Annual Evaluation

Rowland Elementary

2023-2024

Platinum Implementation Award

In August 2023, The California PBIS Coalition recognized Rowland Elementary's successful PBIS implementation at the PLATINUM level. This award reflects excellence in the measurement of fidelity, as well as our schools' efforts in implementing the core features of Positive Behavioral Interventions and Supports.

What is PBIS?

Positive Behavior Interventions and Supports (PBIS) is a multi-tiered framework for creating and maintaining a positive school climate by teaching and acknowledging clear behavior expectations. At Rowland Elementary, our behavior expectations are **PRIDE: Problem Solving, Respect/Responsibility, Integrity, Determination, and Empathy.**

PBIS Implementation Data

<h1 style="font-size: 2em; margin: 0;">100%</h1> <p style="margin: 0;">School-Wide PBIS Fidelity Score for Tiers 1-3 (Goal: 70% or higher)</p>	<p>The Tiered Fidelity Inventory (TFI) measures the level of implementation of PBIS. Schools scoring at 70% or higher on the TFI are considered effective and more likely to see outcomes.</p> <p>Our implementation data revealed that one of our strengths is our school-wide systems that are in place. One focus area for the 23-24 school year will be to have staff continue directly teaching expected academic & social behaviors across all campus settings/locations. We will also ensure that all the students know & understand what P.R.I.D.E. stands for.</p>
